I agree to your proposal that standards 6 to 8 of the Higher Elementary School, Navunda be converted into a Secondary School with Forms I to III from the School year 1954-55 subject to the following conditions:--

iii) Adequate and suitable accommodation should be provided for the Middle and the Elementary schools, both being held in separate buildings and away from each other at the earliest opportunity.

iv) A trained graduate should be appointed as Headmaster of the Middle School.

UNDER SECRETARY TO GOVERNMENT 3-JUL 1954 AGRICULTURE DEPARTMENT

The Fishermen residents of Maravanthe, Badakere, Nada and Hadavu villages presented a petition to the then Minister for Agriculture praying among other things the conversion of the existing fisheries Higher Elementary School into a High School. Extract of their petition was referred to me in the reference first cited.

The fisheries Higher Ele. School at Navunda is a permanent school. This has been raised into a complete Higher Elementary School from June 1953. The School is midway between Gangoli and Byndoor and 7 miles from each of these places. The children studying in the fisheries Higher Elementary School have to go either to Gangoli or Byndoor if they want to continue their further study. The people of Navunda belong mostly to backward communities. The strength in standards VI, VII and VIII at the beginning of the school year in 1953-54 is given below:-

Standard VI - 26
Standard VII - 14
Standard VIII- 25

The approximate population of the village of Navunda within a radius of 3 miles is reported to be 6,000. Therefore there is scope for opening a High School at Navunda. But for starting a High School the existing Higher Elementary School will have to be converted into a Middle School first and then form IV opened to make it a High School. The Director of Public Instruction, Madras has agreed to the proposal to convert the school into a middle school from 1954-55 subject to certain conditions. As the proposals received from the Assistant Director of Fisheries, Mangalore are incomplete, I am unable to submit full proposals with financial implications for converting the existing fisheries Higher Elementary School first into a middle school and then for opening form IV so that the school may be straightaway made into a High School. I shall therefore submit my proposals as part II Scheme for 1955-56 for consideration and orders of Government. I request this may kindly be approved.
